

STEAM - WATER MIXERS ADCAMIX MX20

DESCRIPTION

The steam/water Adcamix mixers provide cheap, instant source of low pressure hot water by using existing steam and cold water supplies.

The mixer incorporates a safety device to ensure that live steam cannot be accidentally ejected, even if for some reason the cold water supply fails.

The temperature of water at the outlet of the Adcamix is easily controlled by using water and steam valves fitted to the inlets.

Connections are female screwed.
